### Career Objective

A Computer Science and Engineering graduate from BRAC University whose primary goal is to work in an environment where I can learn, apply, and enhance my knowledge by interacting with enthusiastic minds. Passionate about contributing to the nation's betterment and implementing skills to solve real-life problems.

### Education

BSc in Computer Science and Engineering | BRAC University | 09/2016 - 01/2021 | CGPA: 3.07/4.00

Higher Secondary Certificate | Khulna Public College | 05/2013 - 04/2015 | GPA: 5.00/5.00

Secondary School Certificate | Khulna Public College | 01/2011 - 03/2013 | GPA: 5.00/5.00

### Experiences

Senior Engineer, Service Assurance | Infozillion Teletech BD Ltd. | 06/2025 – Present  
- Troubleshooting, Debugging and A2P System monitoring.

Support Engineer, Service Assurance | Infozillion Teletech BD Ltd. | 01/2024 – 05/2025  
- A2P System, network connectivity and HTTPS error codes monitoring

Venue Staff (Freelancer) | British Council Bangladesh | 04/2023 - 03/2025  
- Invigilating School and O level examinations.

### Projects

Secured Internet of Things (IoT) Model using Blockchain | Undergraduate Thesis  
- Used Blockchain to enhance IoT security, transparency, and scalability.

#### Home Automation System | Digital System Design Project

- Designed an efficient, low-cost system for rural electricity conservation.

#### Heart Disease Prediction | AI Project

- Built a prediction model using Logistic Regression for improved medical test results.

#### Obstacle Detector for Blind People | Microprocessor Project

- Developed Arduino-based device for enhanced mobility support.

### Skills

Programming: Core Java, Basic Python, SQL

Tools & Platforms: Nginx, Elastic Search, Kibana, Logstash, Nagios Core, Grafana, MS Office, API Testing (Postman).

Others: Troubleshooting and Debugging, UAT and RESTful API testing, Customer support.

### Personal Projects

Course Management CRUD Application with Unit Testing (Spring Boot).

- A CRUD application using spring boot where UNIT testing is implemented.

Simple Banking Application using JS DOM

- User can deposit and withdraw money in an easy way

ATM Machine Project Simulation

- A complete project which will help us to understand most of the activities of an ATM machine

### Certifications & Achievements

Cisco Networking Academy Skills Competition Bangladesh [2020]

Deputy Country Coordinator, International Youth Summit [2020]

Oracle Certified Foundation Associate [2023]
