## ABOUT ME

I'm a driven web developer striving to become an experienced full-stack developer. I thrive in collaborative workplaces that encourage creativity, adaptability, and continual learning. Building user-focused, effective, and scalable online apps is my goal, and I have a solid foundation in both front-end and back-end technologies. I'm constantly trying to improve my abilities and keep up with the rapidly changing web development industry..

## PROJECTS:

### Grub

- Grub is a fully functional food delivery web application built using React, Tailwind CSS, Sanity CMS, Stripe, Redux Toolkit, and Framer Motion.
- Allows users to explore, filter, and order meals by cuisine, relevance, or delivery time.
- Features a streamlined cart-to-payment flow with a visual step tracker.
- Fetches real-time data from Sanity for dynamic content updates.
- Integrated with Stripe for secure and reliable payment processing.
- **Github:** [faiyaj7/Grub\\_client](https://github.com/faiyaj7/Grub_client)
- **Website:** [grub.faiyaj.com](http://grub.faiyaj.com)

### FUDO

- The frontend of our pizza delivery software is built with Next.js, enabling high performance and static site generation (SSG).
- Sanity is used as a headless CMS for smooth and flexible content management.

- Zustand manages application state effectively with a lightweight and scalable approach.
- Stripe integration ensures secure and seamless payment processing.
- Tailwind CSS powers a customizable UI, supporting both light and dark modes.
- **GitHub:** [faiyaj7/Fudo](https://github.com/faiyaj7/Fudo)
- **Website:** [fudo-sepia.vercel.app](https://fudo-sepia.vercel.app)

## **Vivid Ventures**

- Advanced Search and Filter: Enhances user experience with seamless product exploration.
- Sorting and Categorization: By price, rating, and product category for easy navigation.
- Pagination: Efficiently manages large product catalogs.
- Responsive UI: Tailored experience across devices for accessibility.
- Authentication: Integrated Google authentication for user accounts.
- Payment Integration: Secure transactions through Stripe.
- **GitHub:** [faiyaj7/VividVentures](https://github.com/faiyaj7/VividVentures)
- **Website:** [vivid-ventures-mu.vercel.app](https://vivid-ventures-mu.vercel.app)

## **The Weirdos**

- Developed the first NFT platform, "The Weirdos Club," utilizing state-of-the-art tools like Tailwind CSS for a responsive and slick design and React for dynamic user interactions. A smooth and Captivating user experience that invites people to become members of The Weirdos Club and discover unique NFTs, each of which is a digital work of art in the rapidly changing world of digital collectibles.
