PROFESSIONAL OVERVIEW

Enthusiastic and detail-oriented Junior Flutter Developer with a strong foundation in Dart programming and mobile UI/UX principles. Skilled in building cross-platform mobile applications using Flutter, with hands-on experience in developing responsive and efficient apps. Passionate about clean code, continuous learning, and contributing to team success through hard work and creativity. Proven ability to adapt quickly to new technologies and collaborate effectively in agile environments. Eager to bring technical knowledge and a problem-solving mindset to real-world development challenges.

WORK EXPERIENCE

Trainee Flutter Developer

SparkTech Agency | 01 July 2025 - Present

- Assist in designing and developing mobile applications using Flutter and Dart.
- Collaborate with UI/UX designers to implement responsive user interfaces.
- Learn and follow coding standards and development processes.
- Fix bugs and write clean, maintainable code.
- Work with APIs, third-party packages, and backend services.

Projects

1. E-Commerce Mobile App

(<https://github.com/Abdulaowalasif/Ecommerce>)

Flutter, Dart, Firebase, Getx

- Developed a cross-platform e-commerce app with Firebase Auth for secure user login and Firestore for product, cart, and order management.
- Used GetX for reactive state management, routing, simplifying app architecture and improving performance.
- Designed custom product UI components and implemented real-time cart updates and order tracking with live Firestore listeners

2. Notes App (<https://github.com/Abdulaowalasif/Notes>)

Kotlin, Room, MVVM

- Built a native apps to create ,read update,delete notes using room database.
- **MVVM architecture** with **LiveData** and **ViewModel** for separation of concerns.
- **Repository pattern** for clean data handling
