Career Objective

I am looking for a challenging role in a reputable organization to utilize my technical, database, and management skills for the organization's growth and to enhance my knowledge about new and emerging trends in the IT sector.

Education

Independent University, Bangladesh

BSc in Computer Science

- BSc in Computer Science and Engineering
- **Coursework:** Web development, Machine learning, Deep learning.

Experience

Salesforce Developer (Internship)

- Developed a voice-enabled doctor appointment system using ElevenLabs AI + Salesforce.
- Built Apex classes and REST APIs to store voice commands as Salesforce records.
- Designed dynamic conversational flows with automated actions.
- Streamlined booking through intelligent voice interaction.

ASP.NET Core Developer (Internship)

- Developed RESTful services using ASP.NET Core Web API and MVC.
- Integrated ASP.NET Identity for secure user authentication.
- Built backend logic for data routing, handling, and binding.
- Practiced clean architecture and debugging in team setting.
- Used Git/GitHub for version control and collaboration.

Skills

Languages & Frameworks: ASP.NET Core, ASP.NET MVC, Entity Framework, REST API, Web API, JavaScript, Node.js, React.js, React-Redux

Database: SQL Server, MySQL, MongoDB, ERD Design

Architecture & Principles: Object-Oriented Programming (OOP), SOLID Principles, MVC

Tools & Services: Git, Postman, Firebase Authentication, JWT

Projects

Courier Service Management System (ASP.NET Core MVC)

[github](#) 

- Built a role-based courier system for Customers, Admins, and Deliverymen.
- Enabled multi-step shipment process with complete tracking.
- Designed admin panel to assign deliverymen and manage staff.
- Developed deliveryman dashboard for real-time status updates.
- Used ASP.NET Core MVC, EF Core, and SQL Server backend.
