

# KANIJ FATEMA MAHI

As a recent graduate in Computer Science Engineering, I am seeking opportunities to apply my foundational knowledge in programming, software development, and system architecture to contribute to cutting-edge projects. I am driven by a passion for learning and a desire to grow my skills in artificial intelligence, machine learning, and cybersecurity. I aim to work in an environment that fosters innovation and continuous improvement, where I can collaborate with experienced professionals to create impactful solutions. I am eager to contribute to the team's success while advancing my career in the tech industry.
