Tools: GitHub, Postman

PROJECTS

➤ **Teachers Feedback System**

- Developed a user-friendly feedback platform with secure login/registration, allowing users to submit, view, and manage feedback. Implemented categorization (suggestion/complaint/praise), anonymous submissions, and admin response tracking. Added PDF export functionality for easy reporting and analysis, enhancing transparency and user engagement.
- A 3-tier MVC application using ASP.net framework

Git-Repo: <https://github.com/MdShanjidHasanAbir/Teachers-Feedback-System>

➤ **Wordel Game**

- A 5-letter word guessing game with six attempts, providing feedback after each guess to guide the player.
- Built with a straightforward GUI using Python's Tkinter library.

Git-Repo: <https://github.com/MdShanjidHasanAbir/Wordel-game/tree/main>
