

# FARHAN SHAHRIAR

## SOFTWARE ENGINEER

Paikpara, Brahmanbaria | shahriarfarrhan88@gmail.com | 01991919442 | [farhanshriar.pages.dev](http://farhanshriar.pages.dev)

### SUMMARY

As a Python Django backend developer, I have expertise in designing and implementing web applications that are efficient, scalable and meet client requirements. With skills in Python programming language, database management, RESTful APIs and version control systems, I can troubleshoot issues and bugs quickly and deliver high-quality code under tight deadlines.

### TECHNICAL SKILLS

HTML, CSS, JavaScript	Python	OpenCV
ReactJs	Django	PostgreSQL
ExpressJs	Fast-API	MS Office

### PROFESSIONAL EXPERIENCE

#### Vice President, MEC Computer Club                          April 2024 - May 2025

- Strong leadership and organizational skills.
- Communication and public speaking experience through event hosting.
- Problem-solving and decision-making under deadlines.
- Organized coding competitions, hackathons, or project showcases.

#### Executive Web Dev, MEC Computer Club                          June 2022 - March 2024

- Developing and maintaining web applications using the Python Django framework and related technologies, such as PostgreSQL, Redis, Celery, and AWS services.
- Designing and implementing RESTful APIs and integrating with third-party APIs, such as Stripe, Twilio, and Google Maps.

### EDUCATION

#### B.Sc in Computer Science & Engineering                          Feb 2020 - July 2025

Mymensingh Engineering College

- Major in AI and ML
- Thesis on "A generative AI platform for real-time visual rendering — enabling prompt-driven image generation, refinement, and safe creative deployment".

#### H.S.C in Science    May 2016 - April 2018

BAF Shaheen College, Tejgaon, Dhaka

### ADDITIONAL INFORMATION

- **Languages:** Bengali, English.
- **Certifications:** Certificate of Completion in Python Basics, Coursera.
