in Md. Abdulla-Bin-Islam

Summary

Worked across the full stack, creating interfaces that feel easy to use and the logic that makes them reliable. Experienced in building smart systems that adapt, online platforms that can be customized, and mobile apps that are simple but powerful. Often take projects from idea to launch, making sure they're not just technically solid but also practical in real use. Always focused on solving problems with the right tools, not just adding tech for the sake of it. .

Experience

Accord Technologies Limited   **June 2025 - Present**
Junior Software Engineer   House - 67, Level - 6, Block - C Rd No 4, Dhaka 1213

⊘ https://accordhrm.com/

1. Contributed to multiple WordPress projects such as Good Life Plus and Drivex Autos, where customization went beyond simple setup—modifying WooCommerce, tailoring themes, and extending functionality with custom plugin development.

2. Established custom plugin development as a core strength by building solutions that added new features and improved usability, ensuring projects met both business goals and user expectations.

3. Played a key role in Accord's flagship software, Accord HRM, working with Laravel and Vue.js on both the frontend and backend, blending robust server-side logic with interactive, user-focused interfaces.

Skylark Soft Limited   **October 2024 - March 2025**
Junior Software Developer   House-142, Road-05, Avenue-04, DOHS, Mirpur-12

⊘ https://www.skylarksoft.com/

1. Contributed to the Buying-House-ERP by enhancing existing features, fixing bugs, and developing new functionalities to optimize overall performance.

2. Contributed to the development of the SaaS platform, Garmentick.

3. Collaborated with cross-functional teams to deliver features aligned with technical and business requirements

4. Designed and implemented the complete frontend for the SaaS platform, Deadoline.

5. Worked with quality assurance teams to streamline testing processes and ensure smooth product releases.

Education

American International university-Bangladesh   **March 2021 - January 2025**
Computer Science   Bachelor of Computer Science and Engineering
CGPA- 3.73

⊘ https://www.aiub.edu/

 Milestone College   **HSC-2020**
Science   Higher Secondary School Certificate
GPA-5.00

Projects

Online Education Platform (EDU-MASTERY)
Full Stack Developer

🔗 https://github.com/Abdulla73/Online_Education_Platform_Back-End
Created an online education platform with Next.js and Nest.js, featuring secure user authentication (JWT, Passport.js), a database with PostgresSql, account management, live chat, and course purchasing.

Employee Management System (EMPLOYEE PRO)
Personal Project

🔗 https://github.com/Abdulla73/employee-management
Created an employee management system using the Laravel framework to demonstrate database relations, authentication, and industry-standard work.

Rainfall Prediction (RAINY)
Developer

🔗 https://github.com/Abdulla73/Rain-Fall- Predication
Created a machine learning model to forecast precipitation using SVM, Gradient Boosting, Random Forest, and Decision Trees, with performance.

E-Commerce App (Farmers Market)
Developer

🔗 https://github.com/Abdulla73/FarmerMarket
Created a farmers market system using the ASP.NET framework, incorporating Entity Framework for database management and React for a dynamic front-end experience, demonstrating full-stack development skills and industry best practices.

Skills

Web Development
Advance
● ● ● ● ●

Next.js, React, XML, Bootstrap, Material UI, Vue.js, NestJS, PHP, ASP.NET (.NET Framework), Laravel., wordpress

Machine Learning
Advance
● ● ● ● ●

Pytorch, TensorFlow, Numpy, Pandas, Keras, Scikit-learn, Python, CNN, RNN, LSTM, Transformers

Database
Intermediate
● ● ● ● ○

Firebase, PostgreSQL, MySQL, MSSQL

Tools & Technologies
Advanced
● ● ● ● ●

Git, XAMPP, Docker, Postman, Android Studio, VS Code, Selenium., Filezila
