Projects

Predictive Maintenance for Personal Electronics | Live Site

Diagnostic web app to predict device failures

- Integrated animated multi-step forms and real-time data visualization with Chart.js
- Used Firebase Authentication with multi-factor authentication for secure access

  Tech Stack: React.js, Node.js, Express.js, MongoDB, Firebase, Chart.js

Career Impacts | Live Site

Collaborative web app enabling job seekers to publish resumes and employers to post opportunities, built by a team of 4 developers.

- Implemented secure user authentication and protected routes using Firebase Auth
- Designed and developed the About page UI with React.js and Bootstrap for a clean, responsive experience
- Collaborated effectively with team members using Git and GitHub for version control and code reviews

  Tech Stack: Bootstrap, JavaScript, React, Node, Express, MongoDB, Firebase

Trek Heaven | [**Live Site**](#)

Online booking system for trekking packages

- Built features for users to book/cancel packages and track orders
- Added admin functionality to create and manage trek packages

  Tech Stack: Bootstrap, JavaScript, React, Node, Express, MongoDB, Firebase

Education

Bachelor of Science in Computer Science and Engineering

Daffodil Institute of IT | 2020 – Present

Soft Skills

- Problem-solving mindset
- Team collaboration
- Adaptability and quick learning
- Effective communication
- Attention to detail

Certification

- [Complete Web Development Course by Programming Hero](#)
