PROJECTS

DJANGO REST API PROJECT | DRF Python
This **project** was developed to practice and implement full CRUD operations using Django REST Framework (DRF).

API DEVELOPMENT |Django Rest Framework
This **project** I have developed using Django REST Freamework(DRF) to implement full CRUD operations. I have explored multiple approached like fucntion-based views, class-based views, serializers, mixins, generics etc.

STUDENT MANAGEMENT | A Web Application
This is a simple Java based Spring Boot project with REST API and CRUD operations. The tools required to build this project are Spring Boot, MySQL DB, and Postman. In this project, I only did the backend part.

EMPLOYEE MANAGEMENT | A Web Application
It is a simple **MVC Project** Spring with no REST API but with CRUD operation. I have used Thymeleaf for the Frontend and SpringBoot for the Backend and Mysql for the database
